5 ★

**HRC2 Men's Hi Vis Open Front
FR Shirt With Gusset Sleeves
And FR Tape** has received a 5
star review.

Title: THANK YOU

I received the shirts a couple
of weeks ago, last Wednesday I
was hit with a large arc flash
that left me with second and
third degree burns to the
hands and face, but where my
shirt covered was totally fine.

With severe burns to 15
percent of my body I am very
lucky to have had this shirt on!

Brad [redacted]@icloud.com)

Actual photo received from Brad

HRC2 Flamebuster shirt coverage. Clearly showing the flame protection the shirt provided to the wearer.

Area of 3rd degree burns on hands from an incidental Arc Flash without any protection.

Hi Sam,

Thank you for your email, I am healing well my face is nearly back to normal, but my hands still have abet to go. It could've been alot worse if it wasn't for your flame-retardant clothing fantastic products at a reasonable cost. I purchased them just as a trial for clothing my team and to no fault of my own resulted in testing them out to 48Ka of fault current for 0.5 seconds. Thank you so much for offering to replace them attached is my original order. as well as a picture of my arm and hand where you can see where the shirt ended for proof your product work's incredibly. My address is [REDACTED]. I look forward to continuing to do business with you in the future. and I will give your company a shout out for your generosity on our social media pages.

Kind Regards,

Brad [REDACTED]
